

## CATARRHAL ASTHMA.

One Bottle of Peruna.

MR. F. L. BOULLION, 208 State St., Little Rock, Ark., writes: "I have been a sufferer with the asthma for about four years, and I tried different kinds of medicines and could not find any relief for it."

"I tried your medicine, bought a bottle of Peruna, and after taking about half of it I must say that I have not had the asthma since. Before I took the medicine I did not know what it was to be without having the asthma."

**Systemic Catarrh**  
Mr. Samuel Burden, 201 Springfield Ave., Summit, N. J., writes: "In the fall of 1909 I had repeated attacks of cold, which developed into systemic catarrh."

"It left me very weak and all run down. When I got up in the morning it would take about an hour to get my head and throat clear."

"It also left me with a very weak, all-gone, empty feeling in my stomach, which I thought was dyspepsia, for which I tried different remedies with very little improvement."

"I finally decided to give Peruna a trial. I felt benefited with the first dose. After taking three bottles I was entirely cured. I cannot speak in too high terms of your wonderful discovery, Peruna."

Peruna is manufactured by the Peruna Drug Mfg. Co., Columbus, Ohio.

## PAPER CONTRACT IS TROUBLESOME

May End With Three Senators Cited to Appear for Contempt of Court

NEW YORK, February 11.—With praise for the president and censure for his corporation policies, John Spooner, formerly United States senator from Wisconsin, criticized tonight the proposed federal incorporation act before the American Paper and Pulp association.

"President Taft," said Spooner, "is the noblest man ever placed in high office. He wants to do what is best for the country, but has a difficult legacy. I do not know how he is to work it out, but I do know it must not be worked out along lines that will revolutionize the government, or violate the constitution."

"As solemnly as if I were speaking on oath, I state my opinion that under the constitution congress cannot establish corporations, except for the District of Columbia. It is a new theory that congress may create corporations that can enter a state to do business, whether the state wants them or not. Some big fellows hall the proposal with delight."

"The business of 90,000,000 people cannot be long prosecuted under government espionage. There are 400,000 corporations in the United States. How many can be pointed to as possible violators of the law? I venture to say not more than fifty."

## WOULD STOP BOYS FROM HANGING ON AUTOS

So much trouble has been created for the automobile owners of this city by youngsters who climb on the back of the machines and steal very dangerous rides, that legal steps will be taken in the near future to stop this practice.

For several weeks a number of small boys have taken liberties with the automobiles driven in this city and not only have they had narrow escapes from serious injury but at least one auto was badly damaged when a nervous youngster swung onto the top, which was folded over the tonneau, and nearly ruined that part of the machine.

Several boys have been badly injured in other territorial cities and as both threats and entreaties have failed to stop this very hazardous form of joy riding in this city, the automobile owners are preparing to present an ordinance to the city council, making it a misdemeanor for any one to climb upon a moving automobile without permission.

The city attorney is now at work on such an ordinance and it will be presented to the council within a short time.
